2021 Legislative Report

Week 6: February 15 – February 19

A busy week in the Legislature

As print deadlines loomed in the legislature this week, a flurry of activity dominated the week and a large number of bills were introduced. As of today, there have now been a total of 370 bills introduced in the 2021 legislative session, with certainly more to come.

Virtual Care Act introduced, committee hearing next week

On Monday this week the re-write of the Virtual Care Act was introduced in Senate Health and Welfare committee (S1126). Chairman Martin intends to hold a hearing on the bill next week, Wednesday, February 24. The IAFP was involved in the drafting of this bill and intends to have a couple physicians testify at the committee hearing. Senator Martin has worked hard to incorporate nearly all of the recommendations of the Telehealth Task Force and the work they had done on the issue through the summer.

Also introduced this week by the House is a bill (H179) that would make permanent the current COVID allowance of providers NOT licensed in the state of Idaho to conduct virtual care for Idaho residents.

New Bills of interest introduced this week:

S1126: Virtual Care Act by Senator Martin

Clarifies virtual care practice requirements and expands the ability of citizens in rural and underserved areas of the state to access health care from providers who are not physically present in the patient's geographical area. It also establishes a virtual care advisory board to coordinate, plan, and conduct outreach to increase utilization of virtual care in Idaho

Status: Introduced on Monday, February 15 in Senate Health and Welfare Committee, full committee hearing scheduled for Wednesday, Feb. 24.

H179: Interstate Telehealth by Rep. DeMordaunt

H209: Medicaid Stabilization Fund by Sen Martin and Rep Wood
